THE KEIKI

The next meeting is Saturday May 19th at our regular meeting place, VFW
Post 8681, 18940 Drayton Street and County Line Road

Our May meeting will have member plant sales, member presentations and society business. Member presentation will be by Kara Ramsey, Jodi Ywarsky, Celeste Ogden, Joyce from Joy Orchids and Jeff Rundell. (See page 12)

Mark your calendar!

The 2018 Springhill Orchid Lover's Club Display at the April Orchid Show. Designed by Marita Riesz, Mary Lou Mattana, Pat Baig and Marie Tanaka. Built by Marita Riesz, Pat Baig, Marie Tanaka, Wen Ogden, Joe Parker, and Gerry Waig. Also helping place the plants were Jeff Rundell and Geary Harris

To all members who planned, constructed, cooked, arranged, sold, built, supported, worked, shopped, advertised, recruited or otherwise gave of themselves to make our orchid show GREAT, I want to say THANK YOU. It is through members like you that we continue to advance the enjoyment of orchids. Special thanks of course to Marita who chaired this event and brought everything together. I'll have more to say about our show but, for now, all of you should take a well deserved rest. Jeff

**REFRESHMENTS**

Thank you to everyone that brought something to share for our annual show. The food was all delicious! Also, thank you to everyone who helped in the kitchen. I could not have done it without you.

Our refreshments for May are being brought by: Lori Cleaver, Delia Dunn, Pat Baig, Laurie Ciannamea, Linda Condon.

Beverages

Bobbie Lemay (water),
Wen Ogden (soda)
Keith Adrian (water).

We do have leftover beverages from the show, so if the people who signed up to bring water just want to bring it in gallon containers, we can use it for coffee. If not that is ok too.

PRESIDENT'S MESSAGE

By Jeff Rundell

Change is in the wind. As you may recall, I will not be a candidate for club president this year.

We will be electing a new president and a new board. Above all I want to thank all of you for the support, help and friendship you have provided over my years of service. It has been a pleasure and an honor to lead a group of such diverse, committed and kind members. We certainly have had some interesting and wonderful experiences. Now the bad news: I'm not going anywhere. I will still be putting in my two cents on the board and trying to complete tasks I have started like our not for profit status. Most importantly, I ask that you give our new president and board the support they need to succeed. We are all here to enjoy each other and our orchids. Let us continue to cooperate toward our common goals and remember a line from one of my favorite songs: "We're not here for a long time, but a good time".

Now for some business. Next meeting we will have some mini presentations by members. It's a variety show you won't want to miss. We are also looking forward to member plant sales. NEWS FLASH! The club has been fortunate enough to receive 3 unexpected donations of orchids. One came from a recently deceased and well respected former member, Gordon Gorsuch. The other group comes from a member of my community (Sugarmill) that no longer wanted her orchids. Some of these plants will go into our raffle, along with 9 Dendrobium Angel Love "vivids" donated by Accent Orchids at the end of our show. That should make for a really great raffle. We will be selling the rest of the plants to benefit the club. We hope that this will defray some of the expenses we incurred at the show. There is a wide variety of types and sizes so come prepared to pick up some treasures.

The nominating committee will report at this meeting and we will also hold the election. I want to thank the nominating committee which includes Wendy Paracka, Bobbie LeMay and especially Delia Dunn. She has taken on this responsibility repeatedly and always done a fine job

Remember that questionnaire? I'd like to summarize the responses to the rest of the questions I did not cover in the last issue. Many of these questions did not draw lots of responses so there are no clear majorities to report.

2. New meeting places? A couple of churches were suggested (note: we do need a plan "B" so keep thinking about alternatives).
3. Enjoyable speakers? The list includes Luis, Miranda, Art Stone, Phelps, Smiley, Goodwin and oh no ...Jeff?
4. Suggested speakers and topics? Mac's Orchids, species orchids, mini orchids.
9. Keiki favorites? Culture, personal stories, pictures, speaker notes.
10. Meeting agenda? Show table last, More or less show table, earlier raffle
12. Auction? No changes, prior plant list, May, June, October, Church.
13. Picnic? No changes, no picnic- trip instead, pre-cook food
14. Holiday party? Don't change, Love the Buffet, new location, make it a really big affair
15. Best time for the show? March, April, February, fall
16. Trip? Redlands, Tamiami, member homes, Smiley.
17. Workshop meetings? Yes=7, Possibly = 6, No=2
18. Orchid logo clothes? Shirts=7, Hats=4,
19. Contribute a small amount to orchid conservation? Yes=13, No=1
20. Group supplies? Orchiata=4, perlite= 3, stalite rock=2, aliflor=4

The board will take into consideration these results and always welcomes your input. Finally I want to say a word (just one) about what keeps our group going. The word is- volunteers. People who volunteer to help, share something special within the group. Without volunteers nothing gets accomplished and the more volunteers we have the lighter the load. Currently we have several needs including publicity, the auction and the picnic. Won't you please consider helping us with some of these activities?

By the way, if it is time to make divisions of your plants please keep the club in mind. Remember that our auction in the fall depends on donations from members. It's our biggest fundraiser so please consider a "clump for the club".

I hope to see everyone May 19.

Jeff

NOMINATING COMMITTEE ANNOUNCEMENT

By Delia Dunn

It's that time of year again when we announce our Slate of Officers for the coming year which starts in July.

For President Steve Mattana

1st Vice President Matt Reisz

2nd Vice President & Programming Jovan Parker

Secretary Pat Dupke

Treasurer Pat Baig

It is a real pleasure to have Pat Dupke back with us again, doing much better and she will fit very well into her old position as Secretary.

Pat Baig is relinquishing that spot to be Treasurer which position she much prefers and in which she has experience. Our long time friend and Treasurer, Helen Battistrada will remain on the Executive Board in an Advisory capacity. Now, everybody is happy!!

It is customary to ask for nominations from the floor and I will be doing that at our meeting. Remember, if you are going to nominate someone for a position you must have asked them first if they are willing to serve in that position and received a positive response.

Following that we will hold the Election and next month, in July, we will hold the Installation of Officers.

And I want to thank everyone who played a large part in developing (literally) this slate of officers, including my committee members, Wendy Paracka and Bobbie LeMay,

Redland Orchid Show / Sale Field Trip Fri.**May 18th, 2018, Sponsored by FWCOS**

Trip Cost of \$55.00 includes: bus cost, driver tip, refreshments on bus, entrance fee and \$5.00 discount coupon.

Pickup location: The Pinellas Park Super Walmart located at 8001 US 19 N. It is on US 19 just north of Park Boulevard. We will meet on the north side of the parking lot the left side of the parking lot when you drive in. We will depart at 4:30am. There will be a rest stop during the trip down and we expect to arrive at the Fruit and Spice Park, Homestead. No refunds after April 30, 2018.

Remember to check out AOS.org/Kids' Corner/Kid's Corner recap for more ideas and suggestions for Kid's activities and ideas for making a Kids' Corner of your own at your next orchid show. All it takes is some crafty people, some loving volunteers and a table. The activities can all be created easily. See other articles for instructions on how to create the activities we've tested out or make up your own great activities. Please share your ideas and experiences with the education Committee at sstubbings@comcast.net.

SUMMER SUN

How does sun affect orchids? Solar radiation is much more intense in the summer and plants that have been thriving in full sun all winter may need a little extra protection (shade) when the sun is at its strongest or, often during the late afternoon, when the temperatures are highest. Orchids are easily sunburned and you should take care when moving plants around, especially if you are moving plants grown inside during the winter to a spot outside for the summer. Sunburn, while not in itself a serious problem is irreversible and will make your plants look ugly. In serious cases the plant can be killed outright and any leaf damage is an invitation to a secondary infection in the damaged area

Orchid foliage should be a light yellow-green. The first sign of too much light is often yellow foliage. If left alone, this yellow foliage will eventually turn white and then dark brown and dry as the sunburned area dries out. If the problem is caught before the chlorophyll has been completely destroyed it is often possible to reverse the damage. Once white spots or sunken areas have appeared, the damage is irreversible and the best thing one can do is stop further progression with more shade.

Sudden increasing light levels will burn orchid foliage as illustrated here on this *Bifrenaria harrisoniae* leaf. While small sunburned spots aren't really detrimental to the plant, they are unsightly and remain for the life of the leaf.

We regret having to announce the death of a former Orchid Lover's Club member, GORDON GORSUCH, 89. Gordon passed away in Inverness on April 9, 2018. He and his wife, Shirley were active members of the club until they moved from the area a few years ago. Gordon was an expert orchid grower.

Gordon presented the club with some 30 books, to our Library Collection in 2016. Shirley has given all Gordon's orchids to Delia and Delia has now donated them to our club. There are about 40 and currently they are being cleaned up or re-potted as necessary so they can be used for Sale or Raffle Plants and for Auction Plants . These gifts are very much appreciated.

The orchid, indigenous to Tasmania, is known as The Flying Duck.

Can You Grow Flying Duck Orchid?

Although any orchid lover would love to learn how to grow flying duck orchids, the plants aren't available on the market, and the only way to see flying duck orchid plants is to travel to Australia. Why? Because the roots of flying duck orchid plants have a symbiotic relationship with a type of fungus found only in the plant's natural habitat – primarily in [eucalyptus](#) woodlands of southern and eastern Australia.

Please note that eight of the newcomers are from Citrus County-well, ten actually, since Patricia and Dan Moran have a house here in Lecanto, but are still living in New Jersey. They plan on being down here more often, but they will continue to go back and forth because of grandchildren. Lots of us can relate to that, right?

If you volunteered time working at the show, you must have enjoyed getting to know some other club members better. That is just as fulfilling as experiencing the beauty that surrounded us those two days-and we were treated to the sight and scent of amazing orchids of every size and color and variety!

Thank you for your willingness to participate, and to share your precious orchids.

I'll see you at the May 19th meeting, same time, same place- VFW on County Line Rd at 1:00 pm. Feel free to bring any orchids you'd like to sell, and don't forget to bring a guest (**that'll earn you free raffle tickets for each person you bring with you!**)

Presenting "Orchids Gone Wild"

You are invited to enjoy another facet of your orchid growing experience, by participating in **World Naked Gardening Day** on May 5th... yes, you read that right! It's an annual international event. If you have a greenhouse, or some acreage, or if

you want to be adventurous like those of us with just a screened lanai, why not try a bit of orchid tending in the buff? Discretion is advised...also thanksgiving that we're not cactus fanatics!!!!

PICTURES FROM APRIL CLUB SHOW

From the desk of Steve Mattana

Finally it looks like spring has arrived, it sure was a long chilly winter.

Our May meeting will have member plant sales member presentations and society business. Our member presentations will be offered by, Kara Ramsey who will be talking about micro environment growing, Jodi Ywarsky who will speak about windowsill growing, Celeste Ogden whose presentation will be lady slippers on the windowsill, Joyce from Joy Orchids who will talk about scale. And then a special presentation by Jeff Rundell!

Our June meeting will have Dr. Thomas speaking on Phalaenopsis and other topics. July's meeting will be Accent Orchids presenting Dendrobiums and Schomburgias. August's meeting will be Joyce from Joy Orchids speaking about Cattleyas. For September our meeting will have Phil Hartman from Bredren orchids, who will be speaking on Phalaenopsis. Speaking about Phalaenopsis' I just received notice that the IPA, The International Phalaenopsis Alliance, is offering first time subscribers the special rate of \$32 for one year. (See next page) WOW!! What an interesting summer lineup. I'm looking forward to seeing everyone there. Happy growing!
